

# Christopher Columbus Piazza

**CHRISTOPHER COLUMBUS PIAZZA**

To protect and preserve the integrity of the Columbus Monument, a metal fence was installed around the area in May of 2019. It is similar to the fence that was in place for decades before the city of Pueblo remodeled the area in the 1980's.

Gino Carleo, President of the Southern Colorado Chapter of the Sons of Italy Lodge NO. 2738 spearheaded a fund raising campaign for the fence. Project coordinator John Panepinto worked with Bill Zwick, Pueblo Capital Projects Manager, to gain approval for donating the fence to the City of Pueblo. Metalwork artisan Sam Pantello created and installed the beautiful security fence.

This project could not have been completed without the generosity of the following donors :
